Two undeniably dual duoverbations

Peter Edwin Hook

ABSTRACT: This brief note is intended to put to rest doubts about the existence of duoverbations in Hindi-Urdu.

Hook (2026) proposes the verb-pair in (2) as a categorial complement to univerbations such as the one in (1):

(1) किसानों को गांव स्तर पर ही भंडारण सुविधा और बेहतर बाजार मूल्य मिल दिलाने के लिए सरकार ने एक बड़ी पहल की है।
kisānõ-ko gāõ star-par hī … behtar bājār mūlya **mil=di-l.ā-ne** ke.liye sarkār-ne ek baṛī pahal kī hai
farmers-DAT village level-on EMPH better market prices **get=give-CAUS-INF** for gov't-ERG a big step made has
'The government's made a big step toward providing famers on the village level (the means) for getting better market prices. '
[gaonjunction.com/khabar-junction/world-s-largest-grain-storage-plan-…] √

(2) उसे कठोर से कठोर सजा मिले दिलाने के लिए सरकार को त्वरित पहल करनी चाहिए
use kaṭhor-se kaṭhor **sajā** **mil-e=di-l.ā-ne** ke.liye **sarkār-ko** tvarit pahal kar-nī čāhiye
him.DAT severe-from severe punishment **get-SBJNC=give-CAUS-INF** for gov't-DAT immediate step take-INF should
'The government should take immediate steps for ensuring that he gets the harshest punishment.'

The verb *mil* 'get' in (1) appears in a non-conjugated root form as an appendage of *dilā-* 'cause to get' and is part of a univerbated infinitive in a single sentence. In (2) the verb *mil* 'get' appears in the third person subjunctive form *mil-e* 'should get' which takes the dative subject *use* 'to him' of a clause in *mil-* requiring dative of subject. This form (*use*) is shared as the Recipient dative of *dilā-* 'cause to get'. In similar manner the NP *sajā* 'punishment' is shared as the direct object of *dilā-* and the surface subject or Theme of *mil-*. Example (2) is an instance of two separate (though related) predications occurring together as Cause and Effect (Bashir 1989) in a single sentence, a duoverbation.

If doubts are raised about the identification of the form *mil-e* as a third person singular subjunctive, examples (3) and (4) are ones in which the identification of the lefthand terms are indubitably conjugated subjunctive forms.

(3) पाकस्तान ने ईरान को धोखा देकर, वाशिंगटन में अधिकारियों को विश्वास हो दिलाने की कोशिश की है
pakastān-ne īrān-ko dhokhā dekar vāšiṇṭan-mẽ **adhikāriyõ-ko višvās** **ho** **di-l.ā-ne**-kī košiš.kī hai
Pakistan-ERG Iran-DAT deception giving D.C.-in authorities-DAT confidence be.SBJNC **give-CAUS-INF**-GEN tried has
'Pakistan by deceiving Iran has attempted to build confidence with officials in Washington.'
[hindi.oneindia.com/news/international/ … 803235.html] √

(4) जो चाहो मिल जाय दिलानें वाला डेडी थोड़ी है
jo **čāh-o** **mil jā-y=di-l.ā-ne**-vālā ḍeḍī thoṛī hai
what want-SBJNC.2sg get GO-SBJNC=give-CAUS-INF-doer "Daddy" unlikely is
'You're not likely to have a sugar daddy to provide you with whatever you might want. '
